The highly anticipated debut solo album from Darren Hayes 'Spin' debuts at #3....

This is a fantastic achievement from the former frontman of Savage Garden who's albums 'Savage Garden' and 'Affirmation' both debuted at #1.

In a world of weary uncertainty, singer/songwriter Darren Hayes '**Spin**' is a musical tonic that goes down easy.... '**Spin**' recorded in San Francisco, was co-produced by Hayes and produced by Grammy Award winning **Walter Afanasieff** who's worked with such artists as Ricky Martin, Mariah Carey and Savage Garden.

Here on our shores '**Spin**' has already shipped GOLD.... The first single to be taken from the album '**Insatiable**' debuted at #3 and was the most added track on Australian radio.... It sits at #11 on the National Aria Singles Chart after 10 weeks.

'**Strange Relationship**', with it's infectious string loop and up tempo beats is the second single to be released from the album. Serviced to radio w/c 18th March, '**Strange Relationship**' and was added instantly to FOX FM and SA FM's radio playlists across the board. '**Strange Relationship**' will be released mid April and will feature the Metro Bros remix of '**Insatiable**'.
